

AiSCERT LITE FAQs

AiSCERT LITE offers basic capabilities for bias assessments. For access to advanced features, please contact **Contact@Sigmared.ai** to upgrade to the AiSCERT Standard.

Q: Does AiSCERT LITE support advanced bias assessment features?

A: AiSCERT LITE supports basic bias assessment capabilities. For advanced features, please contact Contact@Sigmared.ai to upgrade to the AiSCERT Standard.

Q: Can I upload multiple projects for bias assessments?

A: Our AiSCERT LITE platform supports only one project.

Q: Can I use bias assessment for unstructured data?

A: Our AiSCERT LITE platform supports only structured tabular data for the time being.

Q: Can I compare the results over a period through ongoing ML monitoring?

A: AiSCERT LITE provides AI bias assessments at a given point in time. For ongoing ML monitoring and bias assessments over a longer period, please contact Contact@Sigmared.ai.

Q: Can I use AiSCERT LITE for explainability?

A: AiSCERT LITE does not support explainability. However, the AiSCERT Standard includes comprehensive EDA, performance analysis, core explainability, and What-if analysis.

Q: Can I use AiSCERT LITE to comply with the EU AI Act?

A: AiSCERT LITE does not support AI compliance. However, the AiSCERT Standard can enable specific compliance based on your requirements. The onboarding process includes customization according to your AI compliance needs.

Q: Can I download the bias report from AiSCERT LITE?

A: Yes, You can download a PDF version of the report from AiSCERT LITE.

Q: Can I add custom metrics to AiSCERT LITE?

A: AiSCERT LITE provides standard metrics, which are quite comprehensive. For custom metrics, please contact Contact@sigmared.ai to discuss the possibility of minor customization.

Q: Can AiSCERT LITE be used to mitigate AI models and data sets?

A: AiSCERT LITE is primarily an AI bias assessment tool. Multiple mitigation methods are included as part of the AiSCERT Standard.

Q: Where is the uploaded data stored?

A: The data is stored in a secured location within the respective region territories in encrypted cloud storage.

Q: Can I implement AiSCERT LITE locally in my network instead of using SigmaRed's private cloud?

A: Yes, AiSCERT LITE can be deployed locally. Please contact Contact@Sigmared.ai to explore deployment options.

Q: Is AiSCERT LITE available in multiple languages?

A: Yes, we can provide AiSCERT LITE in multiple languages. Please contact Contact@Sigmared.ai to customize the platform in line with your local language.

Q: Is AiSCERT LITE support available 24/7?

A: No, AiSCERT LITE support is generally available 8*5. However, the AiSCERT Standard provides 24/7 support.

Q: Is AiSCERT LITE based on any specific cloud providers?

A: No, we are open to Azure and AWS. Our team is willing to explore other cloud providers as well.

Q: Is AiSCERT LITE available as a marketplace offering in AWS or Azure?

A: No, AiSCERT LITE is not available as a marketplace offering in AWS or Azure at this point in time.

Q: Does AiSCERT LITE provide data preprocessing and optimization capabilities?

A: No, AiSCERT LITE requires data to be preprocessed before being fed into the platform. However, the AiSCERT Standard provides some support for preprocessing as part of the onboarding procedure.

Q: How much dataset size does AiSCERT LITE support?

A: AiSCERT Lite supports CSV files up to 25 MB.
